

How to control your profile Settings

by individual member

Your membership consists of 2 parts: An account and members. The account is the main part with address(s) and telephone numbers. The members are the name email address, password, telephone, picture, contacting and privacy settings per each individual.

What to “show” and what to “hide” in the Resident Directory.

What emails you may want to receive.

You may also decide to register separately as members BUT a separate email account is required. We use addresses to control the account. If you register separately as members, we will combine them into one account. If you sell and move out of the park we will ***Suspend / Delete your account.***

After approval, you can continue to control how you wish to interact with our website.

From the home page, click on the drop arrow next to your name in the upper right corner and choose member settings or account settings.
